Assessments – Field of Application Reports

Glass as a Barrier to Fire

Glass Types

Videos of fire and impact tests

Factors Affecting Fire Performance

Installation and Maintenance

Conclusions

Case Studies

OWS Fire Rated CPD is RIBA Approved and provides a comprehensive understanding of what needs to be considered when specifying glass as a barrier to Fire.

The course content can be delivered at your premises at a time to suit you, or online via Teams.

The seminar focuses on internal fire resisting screens and doorsets as well external applications.

Contact Kevin Hulin to book your seminar.
